UKRAINIAN
MOULDING INDUSTRY

duropolymer **PLINTH**

Advantages :

- ▲ The plinth is made of polystyrene, which makes it very strong, shock-resistant and long-lasting in operation.
- ▲ Easy to install - it is attached with glue.
- ▲ It is less exposed to the external influence of various factors: humidity, mechanical damage, discoloration due to sun. Does not settle, resistant to temperature changes.
- ▲ A smooth surface without micropores that protects it from dirt and dust. Does not require special care.
- ▲ Resistant to detergents, does not lose its aesthetic appearance.
- ▲ The structure of the surface plinth providing the easy painting it with any decorative paints without prior preparation.
- ▲ A variety of choices: for painting and ready-made color design that does not require painting (trendies shades and modern textures: concrete, marble, graphite, wood).
- ▲ The possibility of making to order according to the client's design.
- ▲ Made in Ukraine, fast producing terms and delivery.
- ▲ According to examination data, our duropolymer does not emit toxic substances and safe for human health.
- ▲ Repeats the shape of the surface and bends under the rounded walls.
